- JS
- PHP

SOCIAL MEDIA

PATRICIO PANTALEO

ENTREPRENEURSHIP - EDUCATION - WEB DEVELOPMENT

Entrepreneur and educator specialized in e-learning developments and web communication of cultural, social and academic projects. I started teaching and training teachers in the area of social sciences since my graduation in history. I formed and was director of Kimün, an academic journal of the PPCT developed in OJS that is about to turn 7 years online, and in 2020 I started with colleagues the digital archive web project Historias Surcordobesas. During the transit, I participated in provincial and national e-learning trainings, created a regional marketplace, published articles in international journals, a book and, above all, I learned how to learn.
